Profile Summary

Frontend Developer with 2.5 years of experience in building responsive, high-performance web applications using Angular and TypeScript. Adept at writing clean, maintainable code and collaborating efficiently in agile team settings, with additional experience in backend development using Node.js, Express.js, and GraphQL.

Skills

Frontend : Angular, TypeScript, JavaScript, RXJS, HTML, CSS

Backend : Node.js, Express.js, GraphQL

Databases : MySQL

Tools & Testing : VS Code, Postman, Sourcetree, Git, Jest

Experience

Centizen, Inc, Tirunelveli
Software Developer 2023 - Present

ZenBasket (E-commerce Platform)

- Contributed to key modules of a scalable Angular-based e-commerce platform, enhancing critical UI features and overall performance.
- Worked on developing dynamic and reusable UI components using Angular Forms, Services, Pipes, and Angular Material to improve development efficiency.
- Worked on backend development using Node.js and Express.js, where I built and tested custom APIs for core functionalities.
- Integrated RESTful APIs to ensure seamless communication between client and server layers.
- Conducted unit testing using Jest, maintaining over 90% test coverage for critical UI components.
- Maintained high code quality through clean code practices and peer reviews, while being recognized as detail-oriented, solution-focused, and proactive in evolving into a full-stack developer.

Project

Task Tracker : Angular, Supabase <https://task-tracker-34do.vercel.app/login>

A lightweight web application designed to help users efficiently create, manage, and organize daily tasks. Users can add new tasks, monitor daily progress, and easily update task statuses upon completion. Ideal for boosting productivity and improving time management, all through a clean and user-friendly interface.

Education

Dr. Sivanthi Aditanar College of Engineering Thiruchendur
B.E Computer Science and Engineering CGPA: 8.5 2019 - 2023
