Profile Summary

Frontend Developer with 2.5 years of experience building responsive and scalable web applications using Angular and TypeScript. Proficient in crafting intuitive user interfaces and ensuring component-level consistency across projects. Known for writing clean, maintainable code and collaborating effectively in agile team environments. Also experienced in backend development using Node.js, Express.js, and GraphQL.

Skills

Frontend : Angular, TypeScript, JavaScript, RXJS, HTML, CSS

Backend : Node.js , Express.js (Basic), GraphQL

Databases : SQL

Tools & Testing : VS Code, Postman, Sourcetree, Jest

Experience

Centizen, Inc,   Tirunelveli

Software Developer   2023 - Present

ZenBasket (E-commerce Platform)

- Contributed to key modules of a scalable Angular-based e-commerce platform, enhancing critical UI features and overall performance.

- Developed dynamic and reusable UI components using Angular Forms, Services, Pipes, and Angular Material to boost development efficiency.

- Ensured high reliability and stability by writing comprehensive unit and end-to-end tests with Jest and Protractor.

- Integrated RESTful APIs for core modules, enabling seamless data flow between client and server.

- Maintained high code quality by adhering to clean code principles and participating in regular peer code reviews.

- Recognized for being detail-oriented, solution-focused, and proactive in growing into a full-stack development role.

Projects

Task Tracker : Angular, Supabase   https://task-tracker-34do.vercel.app/login

A lightweight web application designed to help users efficiently create, manage, and organize daily tasks. It enables users to add new tasks, mark them as complete, and track daily progress. Ideal for improving productivity and time management through a clean and user-friendly interface.

Education

Dr. Sivanthi Aditanar College of Engineering   Thiruchendur

B.E Computer Science and Engineering GPA: 8.5   2019 - 2023
